i. University Hospital.
j. Homeopathic Hospital.

B. DETROIT BOARD OF EDUCATION REPORT

A course in occupational therapy is now offered to the public by the city schools of Detroit. Craft work is given at Class Technical High
School; medical lectures at Detroit Medical College; teaching methods and psychology at Teacher's College in Detroit.

Students entering the 8th grade may take 170 hours or 92 credits during their high school course in occupational therapy. This work counts toward college entrance requirements. There is no tuition charged and students have the advantage of a beautiful new building, superior equipment and the benefit of a group of special teachers.

The school is open to special students who may take the course within one year.

C. REPORT OF MICHIGAN ASSOCIATION OF OCCUPATIONAL THERAPY

The Michigan association is a year and a half old. It has fifty members all either professional workers, doctors or interested supporting members.

A meeting is held once each month at Newberry House.

The program of the association is propaganda work and standardizing training of aides developing a state-wide organization.

Camilla B. Ball,
Secretary, Detroit, Mich.
